SUMMARY

New full stack web developer with a unique and varied background in healthcare, retail, event coordination, property management, accounting, and the fine arts. This wide array of experience culminates in a meticulous, disciplined, and ever-inquisitive fast learner. Excited to bring new technical and development skills, combined with existing knowledge and skill, to this flourishing field of web development.

TECHNICAL SKILLS

Languages: Git, HTML5, CSS3, JavaScript (ES6 and CommonJS), SQL, NoSQL, GraphQL

Frameworks: CSS Frameworks (Materialize CSS, Bootstrap CSS), MySQL, Apollo

Libraries: jQuery, Sequelize, MongoDB and Mongoose, React

Core Concepts: Mobile-First Design, APIs (client, third-party, and server-side), Agile Methodology, Github and Heroku Deployment
